

Testimonial for Chris Steffan<sup>e</sup> 04-13-2010

I have had the pleasure of working with Chris on a few referrals that I have given him as well as my own health insurance policy. He was able to sell me a policy on short notice before I left for my snowboarding trip earlier this year. Chris is always in constant communication with his clients to make sure that they understand the type of policy that he quoting as well as the benefits. He is great at following up as well as being there to answer any questions that you might have.

Chris, thanks for helping me find the right coverage, and thank you for your professionalism towards all the referrals that I have given you. Everyone that I have sent your way, have said nothing but great things about you and your work.
